Dt&C Bio GROUP

Biotechnology Research Solutions

Dt&CRO

KOSDAQ Listed Full-service CRO

Non-Clinical trials (Safety evaluation, Efficacy evaluation), Bioequivalence, Bioanalysis Clinical trials, Licensing

Clinical Trials for the Purpose of authorization

Phase I, Phase II, Phase III, PMS & PV testing

Huscience

Central Lab, Safety Testing,
Biomarker Analysis,
Genomic Assays (excluding NGS),
Mass Cytometry Assay,
PBMCs (Peripheral blood mononuclear cells) Services,
Customer-Specific Analytics Development
Global Project Management,
Vendor Management,
Investigator Support,
Sample Management,
Cold Chain Bio Logistics

Tech & Electronics Development Solutions

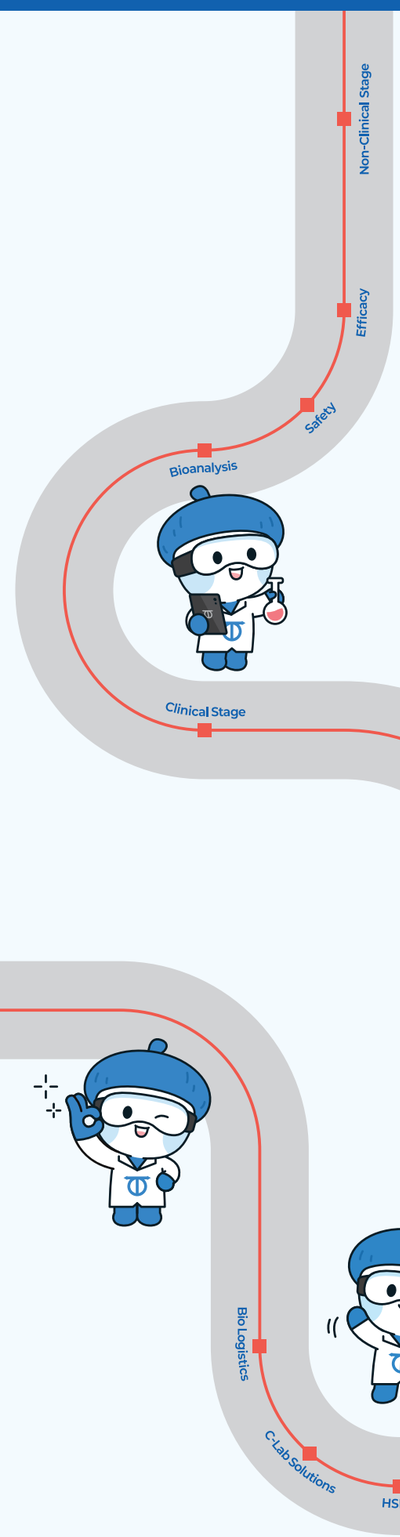

SAFESOFT

Software Authorization, Testing, Evaluation and Development

AURORA (RPA Testing Artificial Intelligence Solution) & Aiker (A customized version of Aurora specialized for video analysis functions),
BluePine (Non-clinical Trial Data Management Solution),
RedPine (Clinical Trial Data Management Solution)

Your Full Service CRO Partner

Your Full Service CRO Partner

Dt&C Bio GROUP provides integrated CRO services from Non-clinical to Clinical trials powered by proprietary IT and a global network.

Dt&CRO

Dt&CRO provides full-service CRO solutions for new drugs, biosimilars, chemicals, food, cosmetics, and medical devices from Non-clinical to Clinical trials.

Huscience

Huscience, a GCLP-certified facility in partnership with Chung-Ang University, ensures reliable clinical sample analysis through top-tier bioanalytical standards.

SAFESOFT

SAFESOFT delivers advanced digital tools AI bio-analysis, SEND, CTMS, and more for seamless, data-driven clinical decision-making.

Dt&C Bio GROUP

Partnering with Dt&C Bio GROUP gives you access to a comprehensive suite of integrated services, purpose-built to streamline your trial management, accelerate timelines, and enhance overall efficiency. We are committed to your success through superior quality, deep expertise, and unwavering dedication to excellence.

Discover how our full-spectrum CRO services can elevate your clinical and Non-clinical trials.
Let us help you shape the future of healthcare-together.

Activity Establishment | Candidates Selection | Manufacturing & Quality Control | Safety & Efficacy | Phase 1 | Phase 2 | Phase 3 Medical Devices | Real World Data (RWD) Phase IV, RMP, PMS, OS

Dt&CRO

Analysis
- ADME Analysis
- Clinical Trial Material Analysis
- Toxicokinetic Analysis
- Pharmacokinetic Analysis
- Protein Characterization

Non-Clinical Trial
- Safety Evaluation (GLP toxicity, safety pharmacology, pathology, environmental toxicity testing)
- Alternatives to Animal Testing
- Efficacy Evaluation (neurological, retinal, respiratory, cardiovascular, liver, gastrointestinal, nephropathy, bone, hormone, muscle, arthritis, metabolic, immunology, dermatitis, anticancer, in vivo distribution assessment and excretion, immunogenecity)
- Non-clinical Trial Consulation

Clinical Trial
- Regulatory Affairs
- CIP Development
- Site/Investigator Identification & Qualification
- Investigator Meeting
- Inspection / Audit
- Data Management
- Statistical Analysis
- Clinical Investigation Reporting
- Monitoring
- Project Management
- CRF Development
- Pharmacovigilance

Others
- License In/Out Service
- Global Partnering
- License Holding
- Contract Manufacturing Service
- SOP Review / Consulting

Huscience

Central Lab
Customized analysis service to meet clinical trials involved customers' needs

- Safety Testing (Chemistry, Hematology, Coagulation, Urinalysis and Stool Assay, Glycated Hemoglobin Assay)
- Biomarker Analysis
- Genomic Analysis (excluding NGS)
- CyTOF (Mass Cytometry) Analysis
- PBMCs (Peripheral Blood Mononuclear Cells) isolation Service
- Customer-Specific Analysis Development

Project Management
- Deployment of Global Project Management
- Creating a Clinical Trials Central Laboratory Manual

I) Sample Management
- Customized Lab-Kit production, packaging & labeling based on the project
- Establishment of optimized specimen storage environments and disposal procedures for each project

II) Investigator Support
- Manual training, help desk, analytical consulting, etc.

Data Management
- Operation of an in-house developed system for managing analytical data (HuLIS / HSMS)
- Electronic Data Transfer Management (EDC API Linked)

Global Bio Logistics & Management
- Domestic and international specialized cold-chain specimen transportation system

SAFESOFT

AURORA
- An AI-powered solution for automated pass/fail testing and unmanned test environments
  → Integrates equipment & EUT control, supports 24/7 automation, and enables issue tracing via test video recordings

AiKer
- A video analysis-specialized version of AURORA
  → Detects real-time changes and performs high-precision image analysis with AI vision

BluePine
- Non-clinical Trial Data Management Solution
  → LIMS, SEND-LIMS, MoPS, PK/PD, HSMS, eSOP/eLMS

RedPine
- Clinical Trial Data Management Solution
  → CDMS, eSAFETY, sPRO, IWRS
